

## Getting to the heart of quality

- Self consumption profile for an Italian high-tech company
- Rivetted supporting structure to guarantee maximum weight efficiency
- Accurate planning to avoid shading

## 190 kWp Rooftop - Plast Project Srl - Francofonte (Siracusa, Italy)

### Technical Data

- Roof mounted installation
- Nominal power: 190.344 kWp
- Estimated energy production : 250 MWh per year
- Estimated CO<sub>2</sub>-savings: 162 tons per year

### PV Modules

- Module type: Hyundai HiS M206 SF
- Number of modules: 924
- Module efficiency: 14.2 %

### Inverters

- RefuSOL: 2 x REFU 100K

### Mounting system

- Tesek

### Completion of construction

- 30.12.2010
